<b>Physical and Chemical Properties</b>	
Physical and chemical properties	
Physical state	Transparent gel
Odour	Characteristic
Colour	Colorless
pH	6.5 +/- 0.5
<b>Stability and reactivity</b>	
Stability	
General information about stability and possible dangerous events consequent to product storage and dispersion	Stable product at room temperature.
<b>Waste Disposal</b>	

General information	
	<p>With regard to the disposal of cosmetic products, the reference legislation is Part Four of Legislative Decree 152/06 (Environmental Code) and subsequent amendments.</p> <p>For the purposes of disposal, non-hazardous waste from artisan activities (in the case of a hairdressing or beauty salon it is empty used bottles or containers) can be assimilated to municipal waste if the Municipality of origin has implemented the provisions of art. 198 of Legislative Decree 152/06 (Environmental Code) which lists the competences of the Municipalities.</p> <p>According to Legislative Decree 152/2006 (Art.75), in the matter of water protection, professional hairdressing activities are qualified as civil settlements, whose waste water can be released into the sewer as such, provided they comply with the regulations issued by the local authorities (eg Municipalities and Consortia) that manage the public sewer.</p>
Regulatory Information	
Regulatory Information	
Regulation (EC) 1223/2009 on cosmetici products; Regulation (EC) 1272/2008 for classification, labelling and packaging of chemicals	<p>"The finished cosmetic products, intended for the end user and governed by Regulation (EC) No. 1223/2009 are explicitly excluded from the scope of Regulation 1272/2008 (CLP) (2) and Directive 1999/45 / EC ( 3). The finished cosmetic products must not be subjected to classification and labeling (according to Directive 1999/45 and, after 1 June 2015, according to CLP). In a completely complementary way the Regulation 1907/2006 (REACH) ( 4) excludes products In a completely complementary way Regulation 1907/2006 (REACH) (4) excludes products In completely complementary way Regulation 1907/2006 (REACH) (4) excludes safety products) and 32 (other information when the safety data sheet is not required) Pursuant to EC Regulation 1223/2009, the end user is, indifferently, the end consumer or professional user. The professional user is protected by the Legislative Decree 81/08, which requires the director of work to carry out an assessment of the risks to the safety and greeting of workers (Article 28 of Legislative Decree 81/08). The aforementioned specified decree (title IX, art. 222) as dangerous chemical agents, not only the substances and preparations that describe the classification criteria of the relevant standards, but also the agents that [...] pose a risk to safety and the greeting of workers due to their chemical-physical, chemical or toxicological properties and the way in which they are present or present at the workplace, including the chemical agents for which a occupational exposure limit value has been assigned (art.222 ( 1) (b) (3)). The safety data sheets are mandatory only for substances and preparations classified as dangerous, and not when the substance / preparation is not classified (articles 31 and 32 of REACH); cosmetic products are totally excluded from the application of these restrictions (art.2 (6) (b) of REACH); The finished cosmetic products are totally excluded from the scope of Regulation 1272/2008 - CLP (art.1 (5) (c)) and Directive 1999/45 (art.1 (5) (c)).</p>
Other Information	
Other Information
